Dear Sir

I called on you
this morning to
express my thanks for the copy
of the Journal containing
your most opportune &
needed letter on the unfor-
tunate Eulogy Ques-
tion. Truly may we say,
"How little flattery is a
"People's grave!"

through applications to him, to do so for me but I have not yet received a second sketch. By-the-bye I see, finds his eyes fail him, & discontinues on that account. I doubt whether he ever had the historic eye, at all.

I wonder what W. C. Bryant & Sydney Gay will make of their projected Pict. History of the United States when they come to the Civil War? Perhaps, however their plan may be to stop short of that

period. Is Wilson's finished? - I ask these questions not to trouble you to answer them, but merely because they rise to my mind while the pen is in my hand.

Was ever such a Statesmanship found carried on under forms of Government as we have discovered since the war? - Is it that the reign of Brute force being broken the reign of fraud naturally takes it? - or must this be the nat-

what culmination of
Republicanism like ours?
— then annual search for a
railability in election bea-
ing its fruits after its Kind?
Forms of Government are
Nothing more than forms
Whatever their Kind. But
ours certainly stands in more
need of enlightened education
Moral & Political, than we
have as yet provided for.
Say nothing of intellectual pro-
visions, that we have made.
But at the legal age What do
our Voters know of the working
of Erroneous principles bad men &
bad measures, which should
enable them to shape their
own political course aright?
